(54) INTERIOR FINISHING SOUND ABSORBING BODY AND INTERIOR FINISHING SOUND BOARD USING IT

(57)Abstract

PURPOSE: To enhance the degree of freedom in interior design without impairing the sound effect of the interior of a room.

CONSTITUTION: Each sound absorbing body is provided with a space 5 at its back face side, a diffusing plate 2 in a slender shape having a projected surface and/or a recessed surface formed at its surface side, and with sound absorbing material 3 bonded to the back face of the diffusing plate 2, and a cut-out section 4 communicating the space 5 with the outside is formed in each diffusing plate 2. Besides, a great number of the interior sound absorbing bodies 1 formed as mentioned above are bonded onto a support board.

LEGAL STATUS

[Date of request for examination] 09.02.1999

[Date of sending the examiner's decision of rejection] 28.11.2000

[Kind of final disposal of application other than the examiner's decision of rejection or application converted to registration]

[Date of final disposal for application]
